PROFESSIONAL SUMMARY

Experienced Full Stack Developer proficient in .NET, Angular, C#, and SSMS. Skilled in delivering quality content, driving project success, and collaborating effectively with teams. Passionate about innovation and continuous improvement

EXPERIENCE

System Engineer
Infosys, Pune

Aug, 2022 - Present

- Developed and maintained software applications utilizing .NET Core, Angular, and SQL Server.
- Managed the project lifecycle from initial planning to delivery, ensuring adherence to timelines and quality standards.
- Collaborated with clients to gather and analyze requirements, translating them into technical specifications.
- Wrote clean, efficient code and conducted comprehensive testing to ensure software functionality and reliability.
- Provided technical support to resolve issues and ensure smooth operation of applications.
- Worked closely with cross-functional teams to achieve project goals and deliver high-quality solutions.
- Stayed updated with the latest technologies and trends to enhance skills and contribute effectively.

PROJECTS

Payout Disbursement
Infosys, Pune

Feb, 2023 – Sep, 2023

- Played a pivotal role in the development of the Payout Disbursements project, leveraging .NET Core, Angular, and SSMS to create a user-friendly portal tailored for lawyers to efficiently distribute funds to multiple payees associated with diverse properties.
- Successfully integrated the National Payment System into the existing infrastructure, involving the establishment of an automated token generation and refresh mechanism, and crucial connections to endpoints.
- Designed a comprehensive and intuitive user interface, enabling users to disburse funds to various payee types and ensuring meticulous tracking of fund distribution.
- Facilitated seamless communication, including note conversations and document exchanges, with the National Payment System through the interface.

- Maintained detailed and organized records of all user interactions and fund distributions, enhancing transparency and accountability.

Decentralize Lenders Infosys, Pune

Sep, 2023- Dec, 2024

- Implemented .NET Core, Sql Server and Angular technologies to revamp the portal's functionality
- Restructured the statement processing system from a centralized to a decentralized model based on branches
- Enhanced the portal's workflow efficiency
- Streamlined and optimized overall performance through the shift to a more agile approach

Title Custodians Infosys, Pune

Dec, 2023- Present

- Developed and integrated a feature enabling servicing and serviced lenders to redirect incoming requests. This allows servicing lenders to efficiently handle requests for multiple lenders simultaneously, significantly enhancing operational efficiency and turnaround time.
- Integrated a dedicated title custodian facility, critical for request management, conducting thorough reviews and validations.
- Leveraged .NET Core, Angular, and SSMS for seamless integration, ensuring compliance and operational efficiency

Technical Skills:

- Programming Languages: C#, Typescript
- Frameworks/Libraries: .NET Core, Angular, .Net 5+
- Databases: SQL Server
- Tools/Platforms: Visual Studio, SSMS, TFS, VS Code, Devops
- Methodologies: Agile, Scrum
- Other: Azure Board

EDUCATION

**B.Tech., Mechanical Engineer
Madhav Institute of Technology and Science**

June, 2018-June,2022
